Reason for your visit: For financial empowerment of ₦1,000,000.00

Statement: I wish to request for financial intervention through this honorable foundation. I lost my job with a financial institution over twelve years now. Since then, I and my family have been suffering in no small measure. I am finding it very difficult to feed my children and pay their school fees. I have a family of seven members (five children, my wife and my very self). The most concern now is my house that expired last month (August) and my landlord is already threatening to eject my family out of his house. I am almost having a psychological and emotional trauma because of this ugly situation. My children may not get back because I am heavily indebted to their school management except there is an intervention.

I am pleading with the management of EmeKaWorld Foundation to come to our rescue, to make our lives meaningful again. I promise to utilize any money given to me judiciously.

Thanks and I pray that this foundation will continue to soar like the Eagle.

Yours Sincerely

Duru Henry Nnamdi
